

# Class Guidelines for Seminar

**Come prepared! Bring your annotated readings to seminar.**

**Call on each other and try to include everyone in the conversation.**

**Listen actively! Consider your body language and do not raise your hand to speak until the current speaker has finished.**

**Agree or disagree with a statement or idea, not with the person.**

**Support your ideas using the textual evidence.**

**Avoid taking sides and making alliances.**

**We are all equals in seminar. Make sure to refer to your fellow seminarians by their formal titles.**

**Be open minded.**
