

Culminating Activity for COS2- Possibilities

Reflecting On the Chosen Path

Materials needed:

Student Sculptures from the kick off, now air-dried.

Procedure:

1. Students are asked to pick up their sculptures and bring them to the group circle.
2. Each student is given a slip of paper that contains the teachers' record of the student's description and connection to their object. Students read what they said at the beginning of the unit and quietly reflect on how their project changed and how it stayed the same
3. Students share their reflections, (how their ideas changed/ stayed the same/ challenges of the project/ how to make the project better etc.)
4. Every student takes their sculpture as a memento of the hard work they have done.
