Seminar Self Assessment Rubric	10-7	6-4	3-1	Score (out of 10)
<b>Participation</b>	I asked and answered several questions thoughtfully without dominating the discussion.	I asked or answered a question or two.	I did not ask or answer any questions.	
<b>Body Language</b>	I used respectful body language throughout the seminar, including: eye contact, sitting up straight, and listening with care.	I sometimes used respectful body language, but sometimes was not paying close attention or being respectful.	I rarely used respectful body language, and often was not paying close attention.	
<b>Preparation</b>	I was on time and fully prepared with thoughtful annotations and a pencil/pen.	I was mostly prepared, but my annotations could use more thoughtfulness, I was a moment late, or I was missing my pencil.	I was not prepared with thoughtful annotations, or I was very late to seminar.	
<b>Respect</b>	I raised my hand, waited my turn, and monitored my participation level to allow others to participate fully.	I occasionally raised my hand, occasionally interrupted, or had some short side conversations while others were speaking.	I did not raise my hand when I participated, and I talked over others repeatedly.	
<b>Citing the Text</b>	I specifically cited the text at least once or twice to aid the discussion.	I cited the text once, but it wasn't very specific or helpful.	I did not cite the text, or my attempt to cite the text was not helpful.
