Journey's End Group Initiative

Materials:

Various PE equipment like a few poly dots, jump ropes, pogo stick, etc, but not too much.
Maybe a 2x4.
A somewhat empty field study
A bench?

Procedure:

Have students start at one end of the field.
Tell them that their goal is to have all students reach the other side of the field - but the floor is lava. They must use the available equipment to reach the other side of the field.
Give them 90 seconds to strategize.
If any one individual touches the lava, everyone must start over again.

- For an extra challenge, they must be silent when on the field.

AOP

What was the most challenging part of this initiative?
How was communication during this challenge?
What was the most enjoyable part of this challenge?
What elements of Resilience, Balance, Power, and Change (this year's cycles) did you use during this challenge?
How did you feel completing this challenge together?
