

## My Shelf Work

My Shelf Work is close to TPR activity. (Total Physical Response) When the students are listening to my vowel sounds, they will need to listen carefully before he/she steps on the footprint with a vowel on it. It will be located on the shelf and the students can get access to it anytime they need to practice on it.

### Control of Error

When I say each vowel, the students listen to it, and students step on each footprint, I will show the vowel what I just said on the whiteboard. So that way the students can check on it to see if they are on the correct vowel footprint.
