

Rubric on Organization: Tracking & Prioritizing Work

Throughout this cycle we have been focusing on organizational skills. These skills are essential to your ability to develop as an independent learner and will assist you as you learn to juggle many more classes and responsibilities in high school. In essence, organizational skills are one of the foundational pieces to your success at Gamble Montessori High School and beyond. This doesn't mean you have to do things in a specified way, but you ARE expected to try out different methods and figure out what works for you (FYI: this can't be nothing!).

Directions: Circle or highlight the parts of the rubric that define your experience. Then score yourself in the final column and add your reflections to explain why you gave yourself that score. Your teacher will also provide their feedback on your performance.
