

## Oral Histories Closing Discussion

*After the presentations have been completed, students can refer to their written reactions to discuss the oral histories overall...*

- ☐ What stuck out to you?
  - ☐ What did you learn about immigration?
  - ☐ What connections can you make between interviewees? What are the differences and similarities among the interviewees?
    - ☐ What were the common challenges?
    - ☐ What were the shared expectations of living in America?
  - ☐ How have these stories influenced their perceptions of immigrants, etc.?
- 

Which way would you prefer to share the oral histories:

- ☐ compile and publish these oral histories in book form?
- ☐ host an evening to which interviewees are invited to hear the oral histories read aloud?
